

Anirudh Sharma

DATA SPECIALIST / DATA ANALYST

+91 9007190214 | sharma.aniiirudh@gmail.com |  [LinkedIn](#) |  [Github](#)

SUMMARY

Data-focused engineering graduate with internship experience in analytics, BI, and operations support. Skilled in Python, SQL, and Power BI with hands-on exposure to ETL automation, dashboarding, and data validation. Proven ability to translate ambiguous requirements into actionable analytics, delivering measurable operational improvements.

EDUCATION

B. TECH, MECHANICAL ENGINEERING

National Institute of Technology, Durgapur

11/2022 - 05/2026

EXPERIENCE

DATA SPECIALIST & DESIGN INTERN | PDF4ME

10 / 2025 – Present

- Engineered data parsing algorithms in Python/SQL, boosting processing **speed by 20%** and reducing memory usage by **15%** across 5+ production pipelines handling **2M+ daily records**
- Implemented automated validation protocols, cutting **parsing errors by 35%** and increasing pipeline **uptime from 92% to 98.5%**
- Translated business requirements into technical specifications, **delivering 12+ features** across 3 sprints while collaborating with cross-functional teams of **8+ members**
- Authored technical documentation for **15K+ lines** of code and 8 REST APIs, reducing new developer onboarding time by 40%
- Conducted **50+ code reviews** and **managed 200+ Git commits**, maintaining 99% adherence to coding standards and best practices

DATA ANALYST INTERN (SUPPLY CHAIN) | TATA MOTORS

05 / 2025 - 07 / 2025

- Developed iterative Power BI dashboards with stakeholder feedback loops, increasing report adoption by **15%** and reducing manual reporting time by **25 hours/week across 3 departments**
- Automated **ETL workflows using Python** scripts to consolidate data from 5+ sources, improving reporting accuracy by 30% and eliminating **40+ hours** of monthly manual data processing
- Conducted root cause analysis on **50K+ logistics records**, identifying bottlenecks and recommending ramp usage optimizations that improved OTIF metrics by **2% within 2 months**
- Delivered **10+ executive-level** presentations to stakeholders, translating complex data insights into actionable recommendations that drove operational improvements
- Authored 8 SOPs for analytical tools, including **Power BI, SQL, and Python workflows**, enabling seamless adoption by **12+ operations team members**

~~CAMPUS AMBASSADOR (STRATEGIC PARTNER) | CISCO~~

10 / 2024 - 06 / 2025

- Executed campus brand awareness campaign for Cisco, engaging **1,000+ students** and converting **100+ prospects** through targeted outreach, social media marketing, and direct engagement initiatives
- Created marketing collateral, including social media posts and promotional posters, driving increased brand visibility and recognition across campus channels as the sole campus representative
- Coordinated 2 technical information sessions end-to-end, managing logistics, venue arrangements, speaker coordination, and attendee engagement to promote Cisco programs and opportunities
- Tracked campaign KPIs, including attendance rates, engagement metrics, and conversion data, leveraging analytics to refine outreach strategies and optimize student participation
- Served as primary liaison between Cisco and campus stakeholders, including student organizations and administration, to secure event resources, permissions, and establish strategic partnerships

CORE COMPETENCIES

- Python
- SQL
- Power BI
- Tableau
- Advanced Excel (VBA, Pivot Tables)
- ETL & Data Pipelines
- Time Series Forecasting (ARIMA)
- NLP fundamentals
- Data Modeling
- Dashboarding
- Git / GitHub
- Stakeholder Management
- Agile / Scrum
- Data Validation & Quality

TECHNICAL TOOLKIT

Data Engineering: ETL & Data Pipelines • Time Series Forecasting (ARIMA) • NLP fundamentals • Data Modeling
Dashboarding Data Engineering: Git • GitHub • Stakeholder Management • Agile / Scrum • Data Validation & Quality
Programming: Python (pandas, NumPy, scikit-learn) Databases: SQL Analytics: Power BI • Tableau • Advanced Excel (VBA, Pivot Tables)

KEY PROJECTS

Research.AI Insight Tool (Full stack, NLP)

- Developed an end-to-end AI research assistant processing 1000+ academic papers, integrating LLM-based summarization, and text-to-speech synthesis to generate audio summaries in under 30 seconds
- Architected scalable backend with modular design pattern supporting multiple LLM providers (OpenAI, HuggingFace), and RESTful APIs, deployed with modern React frontend featuring real-time audio playback

E Commerce Platform Web App & Analytics

- Developed end-to-end eco-friendly marketplace leveraging MERN stack (MongoDB, Express.js, React, Node.js), implementing responsive frontend with 95%+ mobile compatibility and scalable backend architecture supporting sustainable commerce operations
- Designed and implemented a database schema in MongoDB for flexible product categorization, user profiles, and order management, integrated with Express.js RESTful APIs for secure data transactions and inventory tracking

YouTube Channel Analytics & Performance Insights Dashboard

- Developed end-to-end YouTube analytics pipeline using Python and YouTube Data API v3 to extract, process, and visualize 10K+ video metrics, including views, engagement rates, and subscriber growth trends
- Built an interactive Power BI/Tableau dashboard with statistical analysis and trend forecasting to identify content performance patterns and provide data-driven recommendations for channel optimization

CERTIFICATIONS

- Google Data Analytics Professional Certificate - Google, 08/2025
- Google Data Analytics Certification - Google, 01/2026
- Microsoft Azure Fundamentals Badge - Microsoft, 01/2026
- Master Microsoft Excel, 09/2025
- CAPM (PMI) - PMI (In progress)

ADDITIONAL INFORMATION (VOLUNTEERING)

VICE PRESIDENT (OPERATIONS & STRATEGY) | CENTRE FOR COGNITIVE ACTIVITIES (CCA), NIT DURGAPUR
05 / 2025 - Present

- Led operations and strategy for 50+ volunteers and organizers across multiple events with a cumulative footfall of 30,000+
- Managed event budgets of approximately ₹5-10L and negotiated vendor contracts to optimize cost and delivery
- Planned logistics and resource allocation to meet tight timelines while maintaining event quality
